

My name is Fabian van Steenwijk, I'm 23 years old and live in Zwolle a city in the province Overijssel in Holland.

I'm in fourth year of the study psychomotor therapy at Windesheim in Zwolle.

In my leisure time I play soccer and fitness and listen to music.

I choose the program to share experience with other students and learn more from how the therapy is used in their country.

See you soon in Paris!

My name is Corine Buijsman, I am 34 years old and I live in Apeldoorn. I am a part-time student at Windesheim in Zwolle and I will start with the 4th and final year in september. Before I started studying psychomotor therapy I was a dept helper. I helped adults and youngsters with problematic financial situations to get insight in their behaviour and motivating them to make changes.

Afterwards I have worked with physically disabled children, with mentally disabled adults and next year I will start working with psychiatric patients.

Besides that I love to dance and teach Argentine Tango and I am educated to be a Common Ground practitioner, a method of bodywork that was developed from the essential principals of the Tango. I am fascinated by the way Tango increases the awareness of your own center and through that makes you able to have a more balanced and deeper connection with others.

Hello, my name is Karlien Sleper, 22 years old and currently resided in the Netherlands. I'm an only child. I have quite the sporting background, where I've been doing athletics since I was young and since a few years I've also started bobsledding. Because of my extensive sports program I've had a slight delay in my studies. However I'm sure I'll finish my course soon. Because of my passion for bobsledding, my focus in work and sports have turned to that across the borders and I'm very keen to gain international experience. In my second semester of my final year I'm planning to continue my study in Zurich where I want to finish my thesis in the differences in my field of work across Europe.

See you guys in Paris!

I am Willemein Jansen and 21 years old. I really like to sport and especially skating, beside that I can also appreciate a party. I'm going to Paris because I really love the city, but mostly to meet all the other students.

My name is Diede van Rangelrooij, I'm 19 years old and I'm from a small village in the south of Holland. Untill last year I lived there with my two sisters and my parents, now I live in Zwolle where I study PMT. I really like this study and it really fits with me. I always care about others and I can be a very hard worker. I'm usually a very positive person who likes to look for challenges.

I'm looking forward to meet everyone in Paris!

Best Regards,
Diede
